Hi Rob,

We would like to have a technical discussion with you and other appropriate people about the O&M plan for RM 10.9. On the call on behalf of EPA will be myself, Marc Greenburg, Karl

Gustavson and Matt Lambert (and possibly a couple of others).

We have discussed further some of the details outlined in the general plan I sent you on 6/20/2013 and want to share our thoughts and get your input. We are hoping this can be an open, technical discussion.

Please let me know your availability on:

September 24 - morning

September 25 - other than 11 to 1, 2 pm would be ideal

Figure on a 1.5 hour call.

Thanks,

Stephanie
